BOYS LEFT MONDAY FOR CAMP TAYLOR

BIG SANDY COUNTIES COMPLETED THEIR QUOTA ON FIRST CALL LAST MONDAY.

Every man called to report from Lawrence county for service in the army responded last Sunday; and on Monday morning the 45 white men needed to complete this county's quota on the first call left for camp Taylor.

The court house was packed with people at two p. m. Sunday to see the boys enter the service of their country. Some delay in the ceremonies was caused by late trains on the N. & W. While waiting the crowd called for a speech from Mr. K. L. Varney, the eloquent agricultural agent in charge of the Big Sandy district. He responded in one of the most forceful and appropriate speeches that has been delivered here on the war situation. The audience was deeply stirred by the speech. Mr. Varney is equal to any occasion.

Then followed the roll call by the local board, composed of G. R. Vinson, Dr. A. W. Bromley and R. C. McClure. Henry Lambert was appointed leader of the men, to be responsible for the men reaching camp Taylor. They were divided into squads of eight men, with the following in charge of each: Ira T. See, Ben Bentley, Oscar Bailey, Kinner Dean and Chas. T. Johnson.

Monday morning at 8:45 they assembled at the court house and some exercises were held. Testaments were provided for the boys and many presents were given them. They marched to the depot at 9:45 and at 10 o'clock boarded a special train bearing soldier boys from Pike, Floyd and Johnson. A very large crowd was out to bid them farewell and good luck. They are a fine lot of fellows. Following is the list:

MRS. H. G. WELLMAN HOSTESS, HONORING MRS. BRODE

Honoring Mrs. Linden Brode of Wayland-Huntington, Mrs. Harry G. Wellman on last Friday afternoon gave a very delightful party. Her new and handsomely furnished home had added beauty by a tasteful arrangement of ferns and other plants.

Decorations suited to the day—the 22d of February—were much in evidence.

At the conclusion of the afternoon Mrs. Wellman served a most elegant luncheon. She was assisted by her mother, Mrs. M. S. Burns.

Mrs. Wellman was a bride of last fall and while members of her friends have enjoyed her hospitality in her new home this was her first real party and was a most happy one.

The following were the guests on this afternoon.

Mrs. Linden Brode, Mrs. J. L. Richmond, Miss Julia Snyder, Mrs. F. A. Millard, Mrs. A. M. Hughes, Mrs. M. F. Conley, Mrs. B. E. Adams, Mrs. F. L. Stewart, Mrs. R. V. Garred, Mrs. W. L. McDyer, Mrs. R. L. Vinson, Mrs. J. H. Reynolds and daughter, Louise Milton.

NINETY-TWO YEARS OLD.

Mrs. Dorcas Snyder of Rappburg, O., who had been the guest of her sons, T. J. and Augustus Snyder, has gone to Middleboro, Ky. for a visit to her daughter, Mrs. G. B. O'Roark. She was accompanied by Mayor A. Snyder. They went through "The Breaks" and into Virginia and Tennessee. The journey was a long one and Mrs. Snyder stood the trip remarkably well. She was 92 years old the 13th of February.

DEATH OF A CHILD.

H. E. Potter's child, age five months, died Thursday night at his home near Zolda, this county. Pneumonia was the cause of death.

JOE FUGETT IN FRANCE.

Mrs. J. W. Anderson of Potter, received the following letter from her son, Joe Fugett:

Dear Mother:—Just a few lines to let you know that I am o. k. and am enjoying the best of health and hope you are the same. It has been very cold here, but is warmer now and is fine weather. It is just like spring in old Kentucky.

One of our great sports here is hunting wild boar, but we seldom ever see one. While we were at target practice the other day one of the fellows killed one and then we had a big roast, and you bet we all had a feast. I do not have to drill any, am the captain's orderly and have it very easy only when I start to write and then I have to go somewhere for him. I go to some town nearly every day on company business.

On, you should see me with my new gas mask on, I look terrible. The Y. M. C. A. is certainly doing a lot for the soldiers in France. If it was not for the Y it would be awful hard to get paper to write on, and tobacco you can hardly get a bit. I am out about half of the time and you know that a soldier isn't worth much without his tobacco.

I have a nice room to stay in and a good feather bed to sleep on.

My room is next to one of the Lieutenant's rooms and we stay in his room all the time only at night and when we get lonesome we sing "My Old Kentucky Home" and then "Good By Broadway, Hello France" and cheer up and it is not so bad after all.

I am sitting in the captain's room now all reared back like the King of England but am only a poor Sammy. Well, as I can think of no more to write, will close for this time with love and best wishes. JOSEPH H. FUGETT, Co. C, 166 U. S. Inf't, A. E. F. via N. Y.

OIL NEWS.

The first test well at Chapman station, eight miles south of Louisa, was drilled into the Berea sand this week. The formation was regular and encouraging, but only a slight showing of oil was found. It is reported the well will be drilled to the next sand.

It is reported on the streets here that oil has been found in Elliott county in very profitable quantities.

Well No. 2 drilled by E. E. Franklin for Coghill & Clark on land leased from F. R. Bussey was completed Saturday. It is said to be a small pump. Two more locations have been made.

Louisa Man in the West.

Junior Lackey, son of James Q. Lackey of Louisa, writes from California and sends us the following clipping from a San Francisco paper. He says the I. W. W. are worse than we can realize. Junior is in charge of the lines laid by Kennedy and they keep the entire route guarded day and night:

Industrial sabotage by forty members of the I. W. W. to handicap California's participation in national food production through the plotted destruction of the \$1,250,000 Lindsay-Strathmore irrigation project near Visalia, was discovered yesterday when United States Army officers took into their custody Frank Baumann, an enemy alien. The army intelligence office of the Western Department is conducting a rigid investigation of activities that have already done \$60,000 worth of damage to the project, and threatened to destroy the producing value of 15,000 acres of land.

Baumann, who was born at sea of German parents, is accused by fellow workmen of having threatened to blow up with dynamite the controlling works of the project. He also is accused of having boasted while drunk that he and his fellow I. W. W.'s had made useless more than twenty miles of pipe constructed by the Redwood Manufacturers' company of San Francisco thus laying the pipe so that the water would run out at the joints. The suspect also predicted that the project which is nearing its final stages never would be completed.

The I. W. W. troubles at the project developed in August and September of last year, when James Kennedy, a Los Angeles contractor, was warned that there was a definite plan by I. W. W. men, presumably directed by German agents, to prevent the work.

Later, according to C. J. Wood, vice-president of the Redwood Manufacturers' company, his organization quietly dismissed forty I. W. W. men from among the workers. At that time Baumann was not under suspicion and he was retained. Wood said that the activity of the Government men positively insured the success of the project, and that the company would co-operate with the Government to safeguard the pipe lines in every way.

JAMES A. HUGHES FOR UNITED STATES SENATOR

It is reported in West Virginia that ex-Congressman James A. Hughes of Huntington, will become a candidate for United States Senator from that State. He served his district several terms very faithfully and efficiently in Congress and is well known throughout the State. If he goes into the race he will prove a formidable candidate for the Republican nomination.

M. E. C. S. BAZAAR.

The ladies of the M. E. Church, South, announce that on the Friday and Saturday before Easter they will hold the Easter bazaar in the basement of the new church. Dinner will be served one evening, probably Friday. They have been preparing for some time for the bazaar and will have many pretty and useful articles on display and will appreciate your patronage.

CHAS. ROBINSON CLEARED OF MURDER CHARGE

SECOND TRIAL REMOVES THE SENTENCE IMPOSED BY THE FIRST.

Chas. Robinson was acquitted of the charge of manslaughter, in the Lawrence Circuit Court last Saturday. He killed Wm. Blevins near Webbville, to May 1, 1918, for the purpose of conserving the egg supply of the country and to encourage the production of more chickens. Hens may be sold for production purposes, but not to be killed.

In the case of R. L. Jordan, charged with forging a check, the jury disagreed.

Civil cases are now being tried.

H. GARFIELD DELONG.

H. G. Delong, whose death was mentioned in the NEWS last week was a son of Wm. P. Delong, who moved to Madge, this county, a few years ago from Martin-co. Garfield Delong was a prominent school teacher and taught for a number of years in the west where he went in the hope that the climate would prove beneficial to his health. He returned to Kentucky and for the past three years had been at the head of the Flemingsburg High School.

The Flemingsburg (Ky.) Times-Democrat says:—This community was saddened Saturday by a message announcing the death of Prof. H. G. DeLong, at his home in Madge, Lawrence-co., from tuberculosis. His funeral took place there on Monday and owing to the distance and uncertainty of railroad travel, none of his friends here undertook the journey, but the Board of Trustees of our High School telegraphed and had a suitable floral offering sent. Prof. DeLong was about 36 years of age and is survived by a wife and two bright little daughters who have the deep sympathy of this community in the loss of a loving and faithful husband and father. It is seldom that a man comes into a strange community and in the short space of three years so wins the confidence and esteem of the community as did Prof. DeLong. His whole soul and heart was devoted to the success of the school which had been placed in his charge, and his ambition was to place Flemingsburg Graded High School at the head of the list of High Schools of Kentucky, and to send out into the world boys and girls thoroughly equipped to take an honorable place in the activities of the twentieth century. But he has answered the last roll-call and gone to his reward. May that Saviour whom he served be both husband and father to the widow and orphaned children.

MRS. LYDIA BUTLER DIED RECENTLY AT COVINGTON

Mrs. Lydia Butler, who for a number of years lived in Louisa but for the past eleven years had made her home with her daughter, Mrs. B. F. Conway in Covington, suffered a stroke of paralysis on February 2 and never regained consciousness, passing away three days later. Her age was 86 years. She was a native of Johnson county and before marriage was Miss Lydia Milem. Mr. and Mrs. Butler and family were residents of Peach Orchard, this county, a number of years.

Mrs. Butler is survived by two daughters and one son. Mrs. C. H. Borders of Milan, Mo., Mrs. B. F. Conway of Covington, Ky., and Mr. H. B. Butler of New York. Her husband, two sons and two daughters Tom, J. C., Mrs. L. B. Ferguson and Mrs. G. B. Gray, died several years ago. The burial of Mrs. Butler took place at Richardson, this county, and owing to weather conditions and delay of trains, the only immediate relatives from a distance present were Mr. and Mrs. B. F. Conway and Mrs. John McAllister of Covington, Mrs. Alex Williamson and son and Mr. and Mrs. H. W. Scott of Ashland, and Mr. and Mrs. Cecil Fralay of Hitchens. A large number of relatives attended the funeral.

JOHN WORKMAN INJURED.

John Workman, 20 years old of near Louisa, was painfully injured last Thursday when he fell from a swiftly moving railway motor car, which is used by track inspectors. Workman was taken to Huntington on a switch engine to the Chesapeake and Ohio hospital where it was found that his injuries consist of painful bruises about the head. The accident happened about five miles west of Huntington.

JOHNSON COUNTY PEOPLE MARRIED IN LOUISA

The many friends of Miss Mae Duncan, West Van Lear, and Mrs. J. G. Hager of East Point, will be greatly surprised to hear of their marriage which took place here on Tuesday, February 18. The groom who is stationed at Camp Taylor left Monday for his post of duty. Mrs. Hager, who is here the guest of her sister, Mrs. J. A. McCaskey, will remain with relatives until the close of the war.

REAL ESTATE DEAL.

The Lackey property just below town has been sold by the Board of Education of the M. E. Church. The deed was executed to J. P. Gartin, Trustee, and Mr. Gartin will assume possession at once.

FORT GAY DEALS.

Sheridan Dobbins, who recently moved back from Michigan, has bought residence property in Fort Gay from Laze Wellman. The latter has bought from his father Clabe Wellman a place he formerly owned.

NEW HEN RULING

IS A BLESSING

FARMERS NOT PERMITTED TO SELL HENS FOR SLAUGHTER DURING SPRING.

The ruling of the United States Food Administration prohibiting the selling of hens and pullets from February 11 to May 1, 1918, is for the purpose of conserving the egg supply of the country and to encourage the production of more chickens. Hens may be sold for production purposes, but not to be killed.

It is estimated that 1,000,000 fowls are sold annually from this State during this time. This represents a loss of 30,000,000 eggs, which will be prevented this year.

Heretofore every farmer who has sold a hen during February has lost at least fifty cents per hen by so doing.

The nation needs the eggs that will be laid by those hens in order to increase our food supply and help win the war.

After May 1 these hens may be sold as usual.

Furthermore, do not "break up" the broody hen. Give her a setting of eggs and let her raise chickens. FRED M. SACKETT, Food Administrator for Kentucky.

WASTE AND THRIFT.

One effect of the war has been that the people are beginning to understand the truth of the statement that whatever is spent for unnecessary things is a waste of labor.

All that is paid out for unnecessary and expensive food, clothing, and a thousand other needless things, involves a dissipation of labor that is serious and alarming at this particular time.

The scarcity of all sorts of necessary commodities drives home the need of stopping the waste of labor and of diverting it from the production of non-essentials to the making of those things that must be had to sustain the physical and mental efficiency of the people. The only possible way to accomplish this is for everyone to always think twice before buying the things that are not necessary. In other words, systematic thrift, not spasmodic saving, is the one method by which the production of necessities can be made to equal the essential demand. Otherwise the shortage of commodities is bound to become more and more acute, and the physical stamina of the people gradually undermined.

A double benefit will accrue if the savings that result from thrift are invested in Liberty Bonds, for the strain of war financing will then be just so much removed from capital which can to that extent continue to be used in the production of those things that are needed in the war and that are vital to the prosperity and progress of the country.

COURT OF APPEALS.

Elkhorn and Beaver Valley Railway Company vs. Allen, Floyd; appellee filed brief with notice.

Hatfield vs. Burris, Pike; motion for cross appeal and cross appeal denied, motion for an appeal overruled and the judgment affirmed with damages.

Auxier vs. Auxier, Auxier vs. Williamson Coal Co., Johnson; motion to file bill of evidence and plea of limitation passed to be heard with the case on merits.

MAN ESCAPES FROM JAIL AT LOUISA

Wm. Marcus sawed his way out of the county jail at Louisa Tuesday night and escaped. He was charged with receiving stolen goods. Dock Jordan was on his bond and when he failed to appear in court recently Mr. Jordan found him at Catlettsburg and delivered him to the court.

BUYS CEMENT PLANT.

Ironton, Ohio, February 21.—Morris L. Stephenson purchased the Superior Portland Cement company plant and land holdings at the receiver's sale here to-day. He bid \$360,000. It is understood that Mrs. Nannie H. Wright of Ironton, is interested with Mr. Stephenson. The plant will be overhauled and will resume operations within a short time. The sale was conducted by Guy Mallon, receiver.

DECLINES THE HONOR.

Evansville, Ind., February 18.—Samuel May, local millionaire, head of a contract company that built several Government dams along the Ohio River, who has been urged to run for the Republican nomination for Congress in the First Indiana District, to-day stated he would not make the race.

FUNERAL AT FORT GAY.

The funeral of Miss Bertha Selbee was held in Ft. Gay, W. Va., Sunday. She was the daughter of Mr. and Mrs. J. L. Selbee and her death occurred at their home in Huntington Thursday evening of last week, following a lingering illness of tuberculosis. She was 16 years of age. She was a devout member of the church and was an estimable young lady.

MUTT.

Mr. and Mrs. R. V. Garred of Lexington, and Mrs. Linden Brode of Huntington, W. Va., have been visiting Mr. and Mrs. A. J. Garred.

OLIE JAMES PRAISED FROM COAST TO COAST

Washington, Feb. 16.—Messages by the score, many of them from Kentucky and several from as far as the Pacific coast, were received to-day by Senator James, congratulating him on the speech upholding the Administration conduct of the war, which he delivered in the Senate Thursday. In addition to the sheaf of telegrams the Kentuckian received numerous letters commanding him.

Several eastern newspapers printed editorials to-day endorsing Senator James' address. The New York Tribune (Republican) threw a bouquet to Senator James when it referred to him as "an eloquent and forceful orator of old school."

Over the Top

By an American Soldier Who Went
ARTHUR GUY EMPEY

When the Lusitania was sunk Arthur Guy Empey decided that he could not wait for his country to declare war—so he sailed without orders for England, and enlisted as a Canadian.

He recounts this incident in "OVER THE TOP" in less than five hundred words. In a few thousand more words he completes his experiences in England—and after that he is in France—for the greater part of the eighteen months before he was invalided home, in the "Front Line Trenches."

"OVER THE TOP" is the first story by one of the American soldiers who went to France, has been a real combatant and has seen long service in the trenches.

Sergeant Empey tells what it actually means and feels like: to be wounded seven times; to live for a year and a half with mud and rats and shells; to be covered with "cooties" and never to get rid of them; to go "over the top" in a charge; to grasp for your gas helmet when a second's delay means death; to capture a Prussian; to get tangled up in barb-wire with that machine gun working a few yards away; to lie for thirty-six hours wounded and unconscious in "No Man's Land."

For a year and a half, until he fell wounded in "No Man's Land" this American soldier saw more actual fighting and real warfare than any war correspondent who has written about the war. His experiences are grim, but they are thrilling, and lightened by a touch of humor as original as the Soldiers Three. And they are True.

We take pleasure in announcing that we have secured serial rights to this remarkable story and that it will appear in installments IN THIS NEWSPAPER It Is the Real Stuff!

HOME SERVICE NO HAPHAZZARD, ODD JOB TASK

Red Cross Civilian Relief Workers Are Taught to Furnish Aid in Systematic Fashion.

[EDITOR'S NOTE.—This is the fourth of a series of five articles prepared by Mr. Fieger on the subject of Red Cross Home Service. The remaining article is "Organizing and Training 30,000 Home Service Committees."]

By James L. Fieger,

Director, Bureau Civilian Relief, Lake Division, American Red Cross.

American Red Cross Home Service workers in Ohio, Indiana and Kentucky, already administering to families of some 1,500 enlisted men, carry on their work with a "catechism" which includes what may be termed "eleven commandments." As these "commandments" typify the spirit in which this type of Red Cross relief is given, I am stating them here, leaving the reader to draw his own conclusions.

1. Don't overwhelm people with questions before they have a chance to say what they want to say.

2. Don't suggest to them the answers they should make.

3. Don't forget that their hopes and plans are more important than any single fact that the Home Service worker wants in order to make complete a report or record.

4. Don't encourage the children to talk about things that concern their elders—about family difficulties and so on.

5. Don't let the children come to the office with messages and requests except when there is a real emergency and no older person can possibly come.

6. Don't discuss the affairs of a family, nor tell the facts that come to your attention in the course of Home Service work to any outsider.

7. Don't give confidential information about the family when making inquiries.

8. Don't make inquiries of the present neighbors or do anything that will expose the family to gossip. Protect the family in question as you would your own family from anything that would help their self-respect.

9. Don't venture to make permanent plans on a first visit.

10. Don't fail to discover whether there is immediate and urgent need of relief and to make some temporary provision for supplying it before waiting to make further inquiries.

11. Don't fail, however, to inquire (before paying the first visit if possible) what other agencies are interested.

True, the "do's" taught Home Service workers in Red Cross Home Service Institutes, far outnumber the "don'ts," and one or two should be mentioned to further exemplify the spirit of the service and the manner in which it is given.

One is: "Be sure that there is a definite invitation from the family or some responsible person competent to speak for them before entering the home in the name of the American Red Cross."

Another: "Be sure that the member of the family in question is in some branch of the service."

Casual reading of these instructions may lead to the impression that Home Service is a simple bit of work to be done in the odd moments of the members of a chapter committee. It is not a simple work, nor is it an "odd moment" task.

In addition to mastering a knowledge of government regulations on separation allowances and the War Risk Insurance Law, a Red Cross Home Service worker must either be naturally endowed with or be able to acquire the qualities of tact, patience and kindness, and must study the problems which beset home life.

With all its ramifications, Red Cross Home Service is the most exacting type of work now required by this humanitarian institution within the boundaries of our own country. Its requirements for immediate and authentic information of the broadest scope are such that a 116 page handbook of information for Home Service workers is now being prepared by the Director General of Civilian Relief for early distribution.

SO MUCH PAINSTAKING CARE HAS BEEN AND IS BEING TAKEN IN THE ORGANIZATION OF THIS WORK THAT ENLISTED MEN FROM OHIO, INDIANA AND KENTUCKY SHOULD KNOW THAT THIS ARM OF THE AMERICAN RED CROSS IS STRONG ENOUGH TO MAKE THEIR FAMILIES CARES EASIER AND TO EXTEND A KIND, YET UNPATRONIZING, HELPING HAND. SUCH FAMILIES SHOULD WITHOUT HESITANCY COMMUNICATE WITH THEIR RED CROSS HOME SERVICE COMMITTEE WHEN TROUBLED IN ANY WAY.

HOME CIRCLE COLUMN

Our Girls.

They are just two things that will keep girls straight at the age when they begin to think of longer dresses, and beaux. One is plain clothes and the other is home duties. The girls we see making fools of themselves are almost invariably over-dressed. They wear duds that women of thirty should hesitate about wearing.

A little girl with too many and too costly clothes on her back gets self-conscious and vain and loves admiration—and you grown-ups know the next step. A simple, pure-hearted girl who has a place in a home, home work and home duties, has her heart there, and no boy can steal it. Even when maturity comes, and a real man comes, will such a girl leave home, and then only after a heart rending. But a girl who is at home only at the table and late bed time won't love that home. Work makes things sacred. The child whose home memories are not hallowed by work, who is not needed, and does not feel the need, will not love home. And if she does not love the home of her girlhood, she will love no other.

The mothers of this town who are responsible for the girls who gad on the streets should stop and think what they are doing. These girls are no longer children. They are at an impressionable age. Where will you have their impressions come from—from the riff-raff of the streets, or from home? It is for the mothers of this town to settle the question.

We heard of one of our young men making sport of religion in front of our office the other day. His mustache had just begun to sprout and judging from his talk his mental faculties were not as well developed as his mustache.

During our brief stay upon earth we have seen many just such young men cold in death. We have seen the atheist at rest in his casket, but before being consigned to their last resting place they have all been carried through the doors of a church and had prayers said over them. This young man could scoff at religion in his strength and beauty of health, but if the dark angel should get after him he would instinctively regret what he said and look into the future with fear and trembling. When one stands before the open door of eternity his desire to scoff at religion vanishes. We admit there are bad men in church, but even these black sheep in the flock might be blacker if they were outside. No young man or old one either, should condemn the noble efforts, the army of Christian men and women are making towards bettering the condition of things, and whether we attend church or not but few of us would desire to live in a community where there was no church. Young man, in the future, if you must scoff at religion, please get a little farther from our office if you do not want to see your name in print.

Mother.

There is one form sacred in memory's gallery, one face which time can never erase. It is that of our mother, the dear, gentle, compassionate mother who loved us ere we knew what love was, and taught us the right ere we knew the wrong. She sang us to sleep in the innocence of childhood, and awoke us with loving kisses on the bright mornings of long ago. Her eyes beamed with joy as she blessed us at life's dawning and spoke a tender farewell, as the life-sun went down. She watched us to school in the summer sun and taught us our lessons by the wintry fireside. From childhood's morn to manhood's hour she was ever at hand to soothe and console and when at last we must go forth from the old home and fireside, how tenderly and affectionately she caressed us and kissed us good-bye—then waited and hoped and prayed that all would be well. From first to last her love was the same—it knew no bounds. With cheers for the right, tears for the wrong, she was happy in our joys, and in our sorrows, and she washed away our errors in the flooded rivulets of the soul. Her conscience was her guide and her family her greatest joy. She loved her home more than glittering fashion and sought honor in the consciousness of doing good.

The Needs Of The Young.

Your children are apt to think that what you do is right. They have no ideals of truth or righteousness but yourself. Things which you do, knowing at the time to be wrong, they take to be right. They reason this way: "Father always does right, Father did this. Therefore this is right." That is good logic but bad premises. No one ever gets over having had a bad example set him. Your conduct more than your teaching makes impression. Your laugh, your frown, your dress, your walk, your greetings, your good-byes, your comings, your goings, your habits at the table, the tones of your voice are making an impression which will last a million years after you are

dead and the mountains will crumble, and the world will die, and eternity will roll on in perpetual cycles, but there will be no diminution of the force of your conduct upon the young eyes that saw it or the young ears that heard it.

How is your six-weeks-old resolution, does it stick? Now if you happen to slip, jump up instead of giving up. Be on the "try" instead of on the "yield" and the end of the year will find you stronger, better, of lighter heart and somewhat imperfect, but if you "declare there's no use," and fall completely back in the old way, thick with the bogs of "bad habits."

ALL CHILDREN LOVE
"SYRUP OF FIGS" FOR
LIVER AND BOWELS

GIVE IT WHEN FEVERISH, CROSS,
BILIOUS, FOR BAD BREATH
OR SOUR STOMACH.

Look at the tongue, Mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad; has stomach-ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative," they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

GETS HIS FURLough

Private Rambo Sets Fine Example in Contentedness.

Letter to Parents Please Camp Commander and Private Is Given Leave of Absence:

Camp Meade, Md.—Private D. E. Rambo, Three Hundred Fifteenth Infantry, was scared for the first time since he left his home to fight when he was ordered to appear before the "old man," as Brig. Gen. William J. Nicholson is known throughout the brigade.

"Private Rambo!" the General suddenly barked forth. "Did you write this letter?"

Private Rambo looked, cleared his voice of some of its huskiness and admitted he had. It read:

"Dear Mother and Father:

"Am writing you a letter to let you know I received your letter and also the box (Christmas box). You sent the box by express. Why don't you send them things by parcel post?"

Everything was fine, but the honey got warm and ran through the box. The cake was good, too. There's a fellow here I knew up in the city. He thinks your cake can't be beat. We had a fine time yesterday, entertainments and turkey dinner. Now all I want is to get home for a week and then I'm ready to go anywhere. Maw, I never felt better in all my life than I do now. This is sure a healthy life. Plenty of work and all you can eat. Now don't forget to send a cake once in a while, for a box of things like you sent makes life better. You can write and let me know when you send some more cake. With love for all, your son, D. E. Rambo."

"Well, Private Rambo," the general boomed again, "you can have that week's holiday home. I like boys who don't grumble all the time."

ACIDS IN STOMACH
SOUR THE FOOD AND
CAUSE INDIGESTION

"PAPE'S DIAPEPSIN" FIXES SOUR,
GASSY, UPSET STOMACHS
IN FIVE MINUTES.

You don't know what upset your stomach—which portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sick, gassy and upset, and what you just ate has fermented and turned sour; head dizzy and aches; belch gases and acids and eructate undigested food; breath foul; tongue coated—just take a little Pape's Diapepsin to neutralize acidity and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have dyspepsia. A little Diapepsin occasionally keeps the stomach sweetened, and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless antacid in Pape's Diapepsin, which costs only fifty cents for a large case at drug stores. It's truly wonderful—it stops food souring and sets things straight so gently and easily that it is really astonishing. Your stomach will digest your meals if you keep acids neutralized.

REAL FIGHTING
WHEN U.S. STARTS

Canadian Officer Praises Officers and Men of American Army in France.

EXPECTED TO WIN THE WAR

Come in at Time When Strain of Long Fighting Is Beginning to Show on Both Allies and the Foe—German Tactics Simple.

Chicago.—"The Germans must strike now or never," wrote Maj. George W. MacLeod, second in command of the Forty-ninth Canadian battalion, and one of the veterans of the hardest fighting the Canadians have seen in France, in a letter to Capt. A. Wallace Owen of the British-Canadian recruiting mission in this city. Captain Owen is attached to the Forty-ninth battalion.

"All we can do is to say, 'Let the battle commence,'" the letter continues. "Every one is anticipating a big German offensive either against ourselves or the French. There never has been such close co-operation as exists at the present time between ourselves and the French, and if the Boche starts anything he may get the surprise of his life.

Pleased With Americans.

"Every one is very much pleased with the Americans over here. They are a splendid looking lot of officers and men, and their manners and attitude leave nothing to be desired. Once they start in I think that the Germans will have some real fighting to handle.

"One is gradually beginning to realize the meaning of the expression a 'war of attrition.' With the enormous slaughter which has been in progress for over three years the Germans and ourselves are beginning to show the strain. We see it in the type of officers and men as regards physique. Our training possibly counters to a certain extent this loss of physique, but I would not care to see the average unit of today placed alongside its former self. Similarly with the rest of the belligerents. It is at this juncture that the Americans arrive, and one is immediately struck with their appearance. The first million men from the United States army should nearly be able to finish the war provided they are not used in dribs and drabs. Given a completely new army, say of two full corps, or possibly three, in the spring and the end of the war should be not long postponed.

German Tactics Simple.

"I do not think that we are at the last ditch by any means. We have been in tight corners before, and will no doubt sweep our way out of the present one. A German offensive put on simultaneously against the French and ourselves at the present time would, however, make it fairly stiff going.

"I doubt, however, if the German is really sufficiently strong to do this: i.e., two determined sustained offensives. That he will use diversive tactics is probable. He must finish the job this winter, or he never will, and all we can do is to meet the blow when it comes, or, possibly anticipate that blow by one of our own. The German grand strategy has never been anything but simple. His tactics are different. His strategy has been simply to wear down the forces opposed to him until a stage is reached when he can attack."

PRICES JUMP IN 25 YEARS

Wisconsin Farmer Makes Interesting Comparison Between Prices in 1892 and Now.

Portage, Wis.—E. R. Studenmayer, who has been engaged in farming in this locality for the past quarter of a century, has made a comparison between prices prevalent in 1892 and those of 1918. Here's what he found: Hogs in 1892 were \$2.90, now \$16; cattle \$2.50, now \$10; rye 40 cents, now \$1.85; wheat 45 cents, now \$2.20; potatoes 10 cents, now \$1; butter 13 cents, now 50 cents; eggs 8 cents, now 42 cents; cord wood \$2.50, now \$7.50; bacon \$15, now \$40; hay \$5, now \$20, and oats 13 cents, now 75 cents. The farmer says these are only a few of the changes, and while agriculturists are obtaining decidedly better prices than 25 years ago, they are compelled to pay more for what they buy.

FOUND FATHER WAS AWAKE

Young Man Slides Down Chimney While Trying to Dodge Sweetheart's Parent.

Yonkers, N. Y.—Don Botell went to see his sweetheart recently when the father was believed to be asleep. Father was awake.

Don dodged several pieces of furniture, then took to his heels. So did father. Don went up a back stairway to the roof and across neighboring roofs. So did father.

A large chimney appeared friendly and Don shot down. Father did not. He was too fat. Don arrived in the midst of a holiday gathering, but too late to play Santa Claus. He was held by members of the surprised family and turned over to the police. He spent the night in jail and later promised the court never again to force himself into the home of any girl's father. Don was released.

RUB LUMBAGO PAIN
OR BACKACHE AWAY

INSTANT RELIEF FROM PAIN,
BACKACHE, SORENESS, STIFFNESS,
SCIATICA WITH "ST.
JACOB'S LINIMENT."

Back hurt you? Can't straighten up without feeling sudden pains, sharp aches and twinges? Now listen! That's lumbago, sciatica, or maybe from a strain, and you'll get blessed relief the moment you rub your back with soothng, penetrating "St. Jacob's Liniment!" Nothing else takes out soreness, lameness and stiffness so quickly. You simply rub it on and out comes the pain. It is perfectly harmless and doesn't burn or discolor the skin.

Limber up! Don't suffer! Get a small trial bottle from any drug store, and after using it just once, you'll forget that you ever had backache, lumbago or sciatica, because your back will never hurt or cause any more misery.

It never disappoints and has been recommended for 60 years. Stop dragging kidneys! They don't cause backache, because they have no nerves, therefore can not cause pain.

SUNDAY SCHOOL STORIES.

For reasons, not altogether creditable to our human nature, we have fallen into the habit of characterizing a certain class of tales of individual goodness as "Sunday School Stories."

It is true the literature produced for the libraries of Sunday schools, at first, and sometimes even now, was sentimental, pedantic and insincere. Invariably and inerrantly the good little boy or girl was crowned with a halo of prosperity and glory. So false was this to life as to condemn this style of literature to public criticism and contempt.

To such a degree was it carried, however, as to

It is a great mistake to delude ourselves with the idea of an early peace. There is only one way to get peace and that is to whip the Kaiser and his followers to a frazzle, and that is a big job. The German militarists have no honor. Their word is good for nothing. All their sacred treaties and agreements were declared to be mere "scraps of paper" when they decided to break them and start the war. Of what value or permanence would a peace agreement be with those Huns, devoid of integrity, dishonorable to the last degree? The Kaiser will beg for peace when he feels his grip loosened from the throat of an outraged world and not before. He will do so then in an effort to keep from losing his throne and for no other reason. The world can have no assurance of peace as long as he or his descendants are rulers. After all the bloodshed and horror he has brought to humanity, what an awful injustice it would be to our posterity to permit him to retain his crown. Let's quit talking about peace. It is a German scheme to talk peace in order to divert our thought from a crushing victory and to slacken our speed in the great task taken up by the United States to make the world safe for democracy.

We have heard a lot of talk from wet politicians lately about being in favor of "bone dry" legislation. It has been charged that this meant a law so dry as to be unconstitutional, which is the same as no law at all, of course. Now it has been demonstrated at Frankfort that the charge is true. The constitution of Kentucky limits the extent to which dry legislation can go, and the dry people want to go to that limit, but no farther because to go beyond it will annul the law. There must be a "personal use" provision. The dry people regret the necessity of this, but want the best law they can enforce. The scheme of the wets was fully disclosed in the Senate Thursday, as shown by the following report from the Cincinnati Enquirer:

Not one of the "wet" Senators voted for the "personal use" amendment.

The Senators voting against the personal use amendment are: Brock, Burton, Carter, Combs, Early, Gardner, Glenn, Harlan, Harris, Helm, Huffaker, Lewis, Litterell, Morris, Perry, Rayburn, Richardson, Rogers, Sanders, Sims, Simmons, Thompson. Total 23. The Senators voting to concur in the amendment were: Bradley, Frost, Hinckle, Hon. Nunn, Parks, Peak, Rives, Smith, Swinford, Taylor, Whitaker. Total, 12. Of the 12 Republican Senators present and voting, but three of them—Bradley, Parks and Taylor—supported the amendment.

We have heard the opinion expressed several times within the last few years that the improvement of Big Sandy river would never go farther than it has already gone. The present critical situation in transportation circles however, promises to arouse Congress and the country to the necessity of giving the rivers more attention. The Big Sandy project is along to the point where four more dams would reach a very considerable coal field. It is a good time to urge resumption of the improvement. The money already spent is not well invested if we quit. It would be a fine investment for the public if carried far enough to handle river shipments of coal along a route of several miles. This is entirely practical now, since the dam below the mouth of the Big Sandy enables boats to get out into the Ohio at any time.

The railroads are not able to handle the business available. The C. and O. discourages new coal operations. They refuse to set cars, we are told, for new mines that would open along their line on the Big Sandy. They dislike to put in sidings or to allow them to be put in. They have more business than they can handle already, without increasing it. Unless legislation more favorable to railroad operation and development is forthcoming very soon the railroads are going to drag along at the rear of the procession as they are at present retarding the progress of all large affairs. Between the unions and the Interstate Commerce Commission and a number of cumbersome laws the railroads are in the middle of a bad fix and the country is doing most of the suffering.

River transportation will come back if given a chance. The demands of the times will force it back.

GIRLS! THICKEN AND BEAUTIFY YOUR HAIR AND STOP DANDRUFF

TRY THIS! YOUR HAIR GETS WAVY, GLOSSY AND ABUNDANT AT ONCE.

To be possessed of a head of heavy, beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Danderine. It is easy and inexpensive to have nice, soft hair and lots of it. Just get a small bottle of Knowlton's Danderine now for a few cents—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance, freshness, fluffiness and an incomparable gloss and lustre, and try as you will you cannot find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—yes—but really new hair sprouting out all over your scalp—Danderine is, we believe, the only sure hair grower, destroyer of dandruff and cure for itchy scalp and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.

INEZ ITEMS

The many friends of Miss Laura Horn were surprised to learn of her marriage on February 14 at Wayne, Va. to Mr. W. O. Romans. Our congratulations and best wishes are extended to the young couple. Miss Horn is a successful stenographer and has been the secretary for the examining board for several months. She is a deservedly popular young woman and active in church work and she will be greatly missed by her many friends.

Mr. Romans is a fortunate young man. A destructive fire took place last Thursday night at 7:00 o'clock. Fire was discovered in the house of Rev. L. P. Kirk which was being occupied by Mr. Sam Haynes and wife. The family had all gone to church and a coal fire was left burning in the grate in front of which some clothes were left hanging. When the fire was discovered it had gained such headway that it was impossible to save the house or any of the contents. The two story house next door owned by Squire John Stepp was soon in flames and it took quick work to get the contents of it moved out.

The squire has been very sick for months and he was carried out to the home of Rich Butcher where all the family spent the night.

The house on the other side, owned by Ernest Ward, was saved by the speedy work of the crowd of helpers.

Mr. Kirk's house was insured, but Mr. Stepp suffered an immense loss as he had just sold his farm to purchase this property and was without insurance.

The war workers are busy. Forty-six pounds of wool were purchased last week from Mr. Dave Ward and it is being prepared to make into socks for our boys who have gone from Martin county.

The women and girls prepared for the twenty-six boys who went to Camp Taylor, housewives containing thread, pins, buttons and needles.

A farewell meeting was given for the boys at the court house on Sunday night, but previous to this meeting the boys attended Christian Endeavor by special invitation. At the court house a program was given consisting of a flag drill by young ladies, a song by primary pupils and speeches by L. Dempsey, L. C. Richmond, Mrs. Hart, Mrs. E. W. Kirk, Mr. Clark and A. D. Speer.

Rev. E. N. Hart has been sick for a week with pneumonia at the home of Mr. G. T. Justice. His sister-in-law, Mrs. L. B. Hart has arrived from Greenburg to help nurse him.

E. W. Kirk of Louisa spent the weekend in Inez.

CHEERFUL WORDS

FOR MANY A LOUISA HOUSE-HOLD.

To have the pains and aches of a bad back removed—to be entirely free from annoying, dangerous urinary disorders, is enough to make any kidney sufferer grateful. The following advice of one who has suffered will prove helpful to hundreds of Louisa readers:

Mrs. Jas. Q. Lackey, Locust Ave., says: "Several years ago I used Doan's Kidney Pills and from the results I received, I can say they are a splendid remedy. At that time I suffered with weakness and lameness across my action, too. It didn't take Doan's Kidney Pills long to rid me of the complaint and help me in every way. I certainly have great faith in Doan's Kidney Pills and think them a good reliable kidney remedy."

NEWS OF THE WORLD

FRIDAY.

The eastern part of the United States faces a serious food shortage which will continue for two months. Food Administrator Hoover announced last night, and put the entire blame on railroad congestion. The situation, according to Mr. Hoover, is the most critical in the country's history. The only remedy he sees is greatly increased movement of foodstuffs to the exclusion of much other commerce. The Food Administration's action in placing the blame upon the railroads was resented by Mr. McAdoo.

From Toal, on the south shore of the Gulf of Sinland, to Rovone, part of the famous triangle of fortresses which stood as a Muscovite bulwark in the early days of the war, the German invasion of Russia rolls forward like a great tidal wave. The formal message of surrender as yet has not been received by the German high command in Russia, and the invasion is not likely to abate until Russia's abject acceptance of peace terms is in the hands of the German general staff.

The Presbyterian Board of Foreign Missions received information that 3,000 persons in Turkey, Armenia, Persia and Syria face death by starvation. The United States Minister at Teheran cabled the board that beggars crying for food are multiplying daily and in their desperation attack those they beseech.

Premier von Hindenburg was urged by the Socialists to accept President Wilson's statement regarding the principles upon which a general peace can be discussed. The opening of negotiations immediately with the United States is demanded.

Aroused by statements that the Germans are in control of the air over the American sector, the Aero Club of America asked Secretary Baker for a statement covering the air program of the United States.

"Until peace negotiations are reached we are fighting for our lives and the very existence of the free nations of Western Europe," said Viscount Milner, deplored too much talk about war aims.

Plans for supplying women workers for farms during the war probably will include camps for their training, the Women's Committee of the National Defense Council announced.

ONLY JOB OF KIND

Merchant Marine Has an Official Chantie Man.

Stanton H. King of Boston, an Old Salt, Teaches Rookies to Sing Sea Songs.

Boston.—Stanton H. King of Boston has the only war job of its kind. He is official chantie man for the American merchant marine.

His work will be to revive chantie singing among merchant sailors who will join the country's new cargo ships through the United States shipping board recruiting service, national headquarters of which are at Boston.

While chantie singing has declined on all seas, owing to the change in recent years from sailing vessels to steamers—there not being much opportunity to "heave and haul" on board a steamer—its revival is considered important for two reasons.

Chanties insure team work when a crew is pulling on ropes, even aboard steamers; while the building of large numbers of American schooners means an increased demand for men who can "reef, hand and steer" on sailing vessels, where chantie singing used to flourish.

The shipping board trains men to serve on steamers, but if a certain percentage ship on sailing vessels and carry with them the almost lost knack of chantie singing, they will be the better equipped for their work, according to sharp on the seafaring game.

Stanton H. King probably is the country's best-known chantie singer. Chantie singing is part of a weekly entertainment he gives Jack ashore at a mission of which he is head.

The program is usually varied, and to hear Mr. King lead his sailor friends in "Shenandoah," "Bound for the Rio Grande" or "Blow the Man Down" is to understand the psychologic punch of the well-sung chantie.

Mr. King is an old salt and learned chantie singing on deep water vessels. He began going to sea 38 years ago, from the Barbados, in the merchant service.

SHOWS GERMAN AS HE REALLY IS

Brutal Acts of Hun Graphically Described by Major Murphy of Red Cross.

BEAT BEAST AT ALL COSTS

Must Build and Build and Sacrifice to Win the War—A War of Nations in Which Every Man, Woman and Child Is Factor.

New York.—One thousand seven hundred men and women in the grand ballroom of one of the big hotels saw the German as he really is through the eyes of Maj. Grayson M. P. Murphy, Red Cross director in Europe.

Major Murphy arrived here recently, after being in France for nearly ten months, and he is going back again. He came to make a report to Henry P. Davison, chairman of the Red Cross war board.

Major Murphy said in part:

"I want to ask you to consider for a moment the fact that up to this day Germany is entirely victorious in this war; that any peace that is made today on the basis of today's conditions or on the basis of the status quo ante would be practically a complete victory for Germany and for the German idea. Germany has lost nothing in this war except blood. She has fought her war on the territory of others. She has drawn from the territory of others vast supplies of materials and vast sums of money. She has had between forty and fifty million people working for her for practically no wage—really as slaves. She has established her cursed hold on Austria, on Turkey and on Bulgaria, and she has at her feet murdered Serbia and unfortunate Roumania.

Hun Stops at Nothing.

You don't know what these German people are, I believe.

"I cannot begin to describe to you the horrible, brutal, beastly, consistent official things that Germany has done, not in isolated cases, but generally, to the women and children and the poor old suffering people in the countries where she has set her dreadful foot. She has stopped at nothing. British officers told me of seeing their wounded piled in heaps and hand grenades thrown in the midst and exploded to kill them while they lay there.

"British officers have told me of the men being taken as prisoners through Germany and German women coming and offering them a glass of water and splitting it as they handed it to them. I came back across the water with a prominent British officer and statesman. He told me of a friend of his who lay wounded and suffering horribly in front of the German trenches. He lay there for a day and a half or two days, and the Germans came out at night, stood around him and scoffed at him and kicked him and made fun of him, and then went away and left him, and when some of his own people went out at the risk of their lives and brought him in before he died he told them of these things.

"Did you think that the men in that British regiment would be willing to make a half peace with Germany? Do you think that the Canadians who went in the trenches and found their officers crucified—whether those men will make a half peace with Germany? I tell you it is only a short time before our boys who are over there now are going to be suffering those same things, and you have got to understand it here, and you have got to build and build and sacrifice, no matter what it costs, to beat that beast.

A War of Nations.

"This war is not a war of arms. It is a war of nations. There isn't a man, a woman or a child in Great Britain, in Belgium, in France or in Italy that is not a factor in this war. I tell you that if you should go, as I have gone, about those ruined districts in France and see the little children, little bits of tots, four and five years old, driving in the herds at night, seeing the little boys coming down the road—little bits of tots—with their arms full of faggots that they were accumulating against the winter; old men and old women working in the fields until it was so dark that, as you looked, you could just make out those vague ghostly forms gathering in the crops for France.

"I have passed through those towns and looked in the windows at night, where you could see a little here and there, and they were always working, working, working, to carry on this war. It is not the armies of France that are the essential thing to France in this war, nor the armies of England, nor the other countries. Those armies will do their part, and do it to a finish, if they are supported by the people behind, and the great crying need in Europe today is to build up the spirit and keep up the spirit of the people behind the lines, and it is that great work in which the Red Cross—thanks not to us on the other side, but to you on this side—have performed and become the largest known single factor since our entry into the war."

"Our camps are evil—men unfit! These are the germs they bear about to spread distrust and gloom and doubt.

SEA CLOCKS ARE IN BIG DEMAND

War Causes Shortage of Chronometers Used in Ocean Navigation.

NONE IN THE OPEN MARKET

Price Jumps From \$300 to \$500 and Over—Englishman Who Perfected Instrument Won Prize of \$100,000 and Thanks of Mankind.

Washington.—Among the busiest people supplying the United States with war materials are the makers of chronometers. Great care and precision are necessary in turning out these navigating instruments, which are the most accurate portable time-keepers known to science.

Hundreds of chronometers have gone to the bottom of the ocean since the war began. This alone would cause a shortage in the ordinary supply, while the equipping of the new American merchant marine is creating an unprecedented demand for new instruments.

At present there are virtually no chronometers to be had in the open market. Before the war England supplied the world with most of its fine chronometers.

In ordinary times a good chronometer costs about \$300. The present price is \$500 or better, according to the trade made. The supply in this country passes through the hands of a few experts, who are doing their utmost to meet the demand.

From six months to a year and a half are necessary to make and adjust a chronometer. The mechanism is of the finest metals, and specially adapted to resistance to extremes of temperature.

Errors Are Noted.

No clock or watch has ever yet kept perfect time, so there is always a slight gain or loss to a chronometer. For this reason the chronometer's rate of daily gain or loss is determined by observation ashore, and a card showing the rate is made out, and delivered with the instrument. This rate of error is allowed in all notations of time made from the instrument for working up observations made at sea.

The chronometer completes, with the compass and sextant, the trio of indispensable instruments required in modern navigation. By its aid, longitude, or the east or west position of a ship, is determined.

Longitude baffled all navigators until the chronometer came into use in 1735. The ancients and later navigators, including all the great discoverers, could find their latitude by observations of the sun's height, but they could determine their longitude only by "dead reckoning," or estimating their ship's progress from day to day. This system was uncertain, and caused a great many shipwrecks.

Longitude is merely the difference of time between two points on the earth's surface, and it became apparent to students of the problem it presented that if an instrument could be devised that would keep accurate time at sea, it would be possible to find the longitude of a ship's position whenever weather conditions were favorable. Time at the ship could be determined by an east or west observation of the sun, morning or afternoon, worked out by accepted tables. If the time of a given point on shore was known aboard the ship, the difference in time would give the longitude of the ship.

Thus the Red Cross ambulance drivers risk their life to get American soldiers to the surgeons. Lieutenant Dempsey had his ambulance blown to pieces while he was a short distance away picking up a wounded man.

When the wounded soldier gets to the dressing stations or hospitals he is assured of the best bandages because loving hands in America in Red Cross chapters have prepared them. And a cheery Red Cross nurse will smooth his pillow and make his convalescence pleasant.

The dollars given to the Red Cross are doing more than 100 cents' worth of good.

STEP TO VEIL TARTAR WOMEN

Mohammedan Order Enlarges Handkerchiefs to Hide Face of Wives and Daughters.

Petrograd.—The Mohammedan Tartar men of Tchistopol district, province of Kavan, have ordered their wives and daughters each to sew half a square of extra material to the handkerchiefs with which they cover their heads.

"The women long ago ceased to veil, but when meeting unknown men they took a tab of the bow formed by tying handkerchiefs beneath the chin, and held the tab before the face in place of a veil.

Unluckily, as the handkerchiefs with the passing of time grew smaller, the tabs ceased to cover the face, and the act became only a symbol. To make it again a reality husbands and fathers are insisting on bigger handkerchiefs.

SUBSCRIPTION PRICE TO BE INCREASED

BIG SANDY NEWS ANNOUNCES NEW RATE AND PROBABLE DATE.

Increased and increasing costs of everything entering into the making of a newspaper have forced us to a conclusion against which we have been fighting for more than a year; and that is, the inevitable necessity of increasing the subscription price of the Big Sandy News to \$1.50 per year. The situation demands either this or a considerable reduction in the size of the paper. We have chosen the former, and instead of reducing the efficiency of the paper we are planning to improve it.

Probably Next Month.

It is our present intention to put the increase into effect sometime in March. Until that time we shall receive subscriptions at the present rate of one dollar per year. Subscribers may pay us far ahead as they desire at the old rate if they do so before the increased price is put into effect.

The Reason Why.

Recently we received notice of a big advance in the cost of a certain quality and color of ink which we use to a considerable extent in our job printing department. The manufacturer said the coloring matter required had advanced one thousand per cent in cost. This is an extreme instance, but there is a general increase all along the line, touching every department of the newspaper and printing business. Therefore, we must do what everybody else is doing—raise the price of our product.

The manufacturer, the merchant, the farmer, the laboring man, the tradesman, the postoffice department, the butcher, the baker and all the rest, are meeting the increased costs by raising prices. They can not do otherwise, neither can we.

The dollar paid us by the farmer a few years ago bought from three to six times as much farm products as it will buy to-day.

Hundreds of weekly newspapers in the United States have raised their price to \$1.50 and \$2.00 during the last year or two, and the list is being added to every day. The daily newspapers of the country have, with few exceptions, increased their prices. Those that sold at one cent now bring two cents. In New York City in January three leading newspapers doubled their selling price.

We believe our patrons will appreciate the effort we have made to keep the price of our paper down and will willingly grant the increase. But in order to be entirely fair to them we are giving advance notice and the privilege of paying ahead at the old rate of one dollar per year.

KENTUCKY WOMEN PREPARE FOR WAR

Thousands of women in this state have overcome their sufferings, and have been cured of woman's ills by Dr. Pierce's Favorite Prescription. This temperance medicine, though started nearly half a century ago, sells most widely to-day.

It can now be had in tablet form as well as liquid, and every woman who suffers from backache, headache, nervousness, should take this "Prescription" of Dr. Pierce's. It is prepared from nature's roots and herbs and does not contain a particle of alcohol or any narcotic. It's not a secret prescription for its ingredients are printed on wrapper. This Corn Will Peel Right Off!

"Gets-It" Makes Corns Come Of The "Banana-Peel" Way!

Why have to flop on the floor, squeeze yourself up like the letter "Z," and with bulging eyes draw your face up into a wrinkly knot while you gouge and pull at the "quick" of a tender corn? That's

2 or 3 Drops Applied in a Few Seconds—There's no Fussing or Cutting. "Gets-It" Always Works!

The old, savage way, "Gets-It" is the modern, painless, simple way. Lean over and put two drops of "Gets-It" on the corn, put your stocking and shoe right on again, and forget the corn. Pain is eased.

"Gets-It" has revolutionized the treatment of corns. It never irritates the true flesh. You'll stop pulling and gouging at the quick and do away with greasy salves, bandaging, plaster and painful methods. Use "Gets-It". It's common sense.

"Gets-It" is sold by all druggists (you need put no more than 25 cents) or it will be sent direct by Lawrence & Co., Chicago, Ill.

FIRST NAVEL ORANGE DYING

Parent Tree of California Citrus Or-chards Planted 44 Years Ago, Seems Near End.

Riverside, Cal.—The original Washington navel orange tree, planted here forty-four years ago, producer of the first navel oranges grown in the United States and parent of millions of trees now growing in California, is believed to be dying.

Horticultural experts are studying the disease that threatens it in the hope of prolonging its life.

This tree came originally from some point inland from Bahia, Brazil. It was planted here in 1873 by Mrs. C. L. Tibbets, who obtained it from the botanical gardens in Washington. Efforts to discover in Brazil other navel orange trees have so far failed.

NEW INVENTION OF MARINES

It's Called a "Bazooka" and Will Make You "Shake Your Feet" When in Operation.

Port Royal, S. C.—United States marines at this station have a new invention. It's called a "bazooka." No, it isn't a cannon, nor a flying machine, nor a machine gun, but when in operation it will make you "shake your feet." The "bazooka" is a simple contrivance consisting of but two pieces of gas pipe and a funnel, but its secret is the playing. It is said that the Marine Corps Jazz band is the only one in the world that boasts of a "bazooka."

FARM TOOLS READY

Make Needed Repairs on Machinery Before Spring Rush.

ACTUAL LOSS CAN BE SAVED

Farmers Who Wait Until Last Minute Before Examining Implements Often Encounter Trouble.

Place Orders Early.

(Prepared by the United States Department of Agriculture.)

Much time, trouble and actual loss in the operation of the farm can be saved if the implements and machines are well cared for and needed repairs made before the spring rush of work begins. Some farmers wait until it is time to use the implements then haul them out of their winter quarters. The man who follows this practice may find that important implements need repairs, and although the season is ripe for plowing or seeding, which should be done without delay, it is necessary for him to drop all other work and attend to the repair job which could have been done earlier in the season. Orders for repair parts and new machines should be placed as soon as possible. This will acquaint manufacturers and their agents with the demand in different sections and enable them to make the best possible distribution. At the same time, it will eliminate expensive delays in transportation at the busy season.

Preserve All Machinery.

All practicable steps should be taken to preserve machinery now on hand. Needless exposure to the weather should be avoided, and in cases where it is not practicable to house machinery when idle, all bearings should receive a thorough application of heavy oil or grease to keep out moisture and prevent rust. It is believed that on many farms machinery could be more adequately sheltered in the buildings available by exercising care in placing them so as to economize space.

Importance of Oiling.

More damage can be done to a machine in half an hour through lack of oil or grease on some bearings than by a whole season's exposure to the weather, specialists of the United States department of Agriculture declare. For this sort of neglect there can be no excuse, it is said. Operating a machine without lubrication, especially when the bearings are slightly rusty, will quickly result in the wearing away of the metal, often to a considerable depth, in a very few minutes. Expensive breakages, as well as serious delays, also may be caused by operating machines on which nuts have worked loose or have come off entirely, allowing bolts to loosen or drop out.

Some consideration in the use and care of farm machinery are:

Orders for new equipment and repair parts should be placed as soon as possible.

To produce maximum results with a minimum of labor, new and modern, machinery in large sizes should be used wherever possible.

Serviceable equipment, not needed, should be sold or made available to others.

Useless machinery should be returned to the channels of trade as junk.

Thorough lubrication and proper care when in use will materially lengthen the period of service of farm equipment.

More care should be given to protecting farm implements from the weather.

PREPARE A SEED CORN PLOT

Best Plan to Select Choice Ears and Plant in Separate Rows—Discard Large Cobs.

(R. B. COGLON, Idaho Station.)
No matter how inferior the seed corn may be, some of it is better than the rest.

The tendency is for seed of any kind to produce after its likeness.

If the best ears are selected and planted in separate rows, the rest of

Splendid Seed Corn Ears.

the field, one ear to a row, this will constitute a seed plot, where the best seed for next year can be secured.

The average yield of corn in Iowa last year was less than 85 bushels per acre. Yields were secured in Idaho above 125 bushels per acre.

Buy seed corn on the ear, then you will know whether the rows were straight or crooked. You can discard the ears with large cobs and those that are immature or otherwise undesirable.

Test each ear for germination; then you won't be cultivating puny stalks this summer and cultivating and watering hills where no corn grew at all.

The Government First

Tremendous as is the present activity in the marshaling of men, food and munitions for the conduct of the war, the placing of the Bell system unqualifiedly at the disposal of the government has relieved one paramount factor of preparedness.

Every American who wants to help win this war should bear in mind that private service must give way to government service should emergencies require that everything be subordinated to the telephone demands of the army, the navy and other representatives of the government.

So when the increased business of fall and winter is reflected in your telephone service by a slowing down and by more frequent "busy" reports, remember that we are using every means at our command to keep our service up to its usual standard. Every available position at our switchboard is occupied and it is difficult to secure additional positions because Uncle Sam's requirements have reduced the available supply of material to the point where manufacturers cannot make a definite promise of delivery.

Here's how you can help. Use the telephone only for necessary calls, particularly during the busy hours of the day. Be patient when there is a delay. Be cheerful to the operator and if you have trouble call "COMPLAINT."

We appreciate co-operation.

Father And Son Meeting.

One of the most enjoyable occasions in the history of Paintsville was the father and son meeting at the school auditorium Friday evening. Prof. W. E. Ward opened the meeting with an appropriate talk which was much enjoyed by all. Hon. James W. Turner was the first speaker and made a good address.

Other talks were made by the following: H. B. Rice, M. C. Kirk, Harry LaViers, Creston Clark, Mr. Harmon, Mr. Castle and Mr. Holbrook.

Pleasantly Entertained.

Mrs. D. J. Wheeler entertained Monday night in honor of her son Clarence, who is home from New York on a few days furlough. He is stationed on the U. S. S. Arkansas. A most delightful evening was enjoyed by all present.

Mrs. Kirk Improves.

Mrs. M. C. Kirk, who is sick in a hospital at Jacksonville, Florida, is much improved, we are glad to note.

Mrs. Mayo Sick.

The many friends of Mrs. Thomas J. Mayo will regret to learn that she is seriously sick at her home in this city. Her family and friends are alarmed over her condition. Two trained nurses are in attendance. She is one of the most prominent women in this section, being the mother of the late John C. C. Mayo.

Underwent Operation.

Judge Fred A. Vaughan, who took Mrs. Fred A. Vaughan to a hospital in

Louisville, has returned. Mrs. Vaughan underwent a serious operation and is yet in the hospital but is expected to be able to be out again in a few days.

Here From Wayland.

Robt. Atkinson of Wayland is spending a few days here the guest of Mrs. Atkinson and children who are spending some time with Mr. Atkinson's parents, Dr. and Mrs. W. T. Atkinson.

Returned From Pike.

Miss Pauline Carter returned to her home here after spending the weekend in Pike-co. Miss Carter is County Agent for Johnson, Floyd and Pike counties.

Timber Operations.

Last week the Huddleston Timber company started operations on the large boundary of timber purchased last year from F. M. Stafford near Paintsville. A large force of men has started to work cutting timber, building roads and houses. A large mill will shortly be installed and all the timber with a few exceptions will be worked.

The H. Johnson, who for a number of years has been connected with the Rockcastle Lumber company, is the manager of the operation here.—Herald.

Pike County Court Handles Bootleggers.

About the most interesting happening in Pike county recently is the present session of the Pike county court, at which the illicit selling of liquor, which has been going on for some time in Pike county unchecked, is at last meeting with justice. County Judge E. E. Trivette is fearlessly meting out justice to all offenders, and more than twenty-five bootleggers have been given a fine of \$50, and a jail sentence of ten days in jail, within the last week. Since such a small quantity of liquor is the limit to be carried on the trains in West Virginia, these men have been going to Caleettsburg and making their purchases, transporting it on the train to Elkhorn, and then carrying it on horseback through the county to the Tug river side, where it is sold at a great profit. This has been going on for some time, and Pike county is to be congratulated that she has such a man at her head as Judge Trivette, who has been busy ever since he took his oath of office in cleaning up just such conditions.

Miss Lawson Complimented.

Mrs. H. H. Williamson and niece, Miss Lucille Lawson of Williamson, returned to their home Monday after a week's visit with relatives here. During their stay here they were quite extensively entertained. On Thursday evening they, with Miss Sara Williamson were dinner guests of Mr. and Mrs. D. L. Francis. On Friday Mrs. Williamson and Miss Lawson were entertained to noon dinner by Mrs. Ollie Auxier. On Sunday Mrs. Williamson, Miss Lawson and Miss Emma Adele Tackaberry were guests of Mr. and Mrs. Linton Trivette at noon dinner. Besides these affairs, and number of social events were given in honor of Miss Lawson, including slumber parties with Miss Violet Walker and with Miss Elva Bevins.

Pretty Silver Tea.

One of the prettiest of the holiday affairs of the month was the Valentine Tea given at the home of Mrs. James D. Francis, by the Ladies Aid Society of the Presbyterian church. This lovely home was decorated for the occasion with pink carnations and festoons of hearts, and to each guest was given a valentine as a favor. Mrs. J. R. Johnson, Jr., presided over the tea service.

On Sunday evening Mr. Lear of the M. E. Church South, who is holding a

while Mrs. C. C. Bowles had charge of the percolator, and Mrs. A. E. Auxier and Mrs. Linton Trivette looked after the comfort of each guest and passed the baskets of delicious sandwiches. The rooms were filled with guests all afternoon and the whole occasion was one of great pleasure. Mrs. Francis is a charming hostess and any affair at her home is sure to be a great success. The free will offering for the church amounted to about eighteen dollars.

Local And Personal.

Mrs. N. Starkey left Monday for a shopping trip to Louisville. While gone Mrs. Starkey will also visit her sister Mrs. W. H. Layne and little daughter, Angeline, of Prestonsburg, spent the week-end with Mr. and Mrs. A. E. Auxier.

Chas. K. Wagner of Pocahontas, Va. was here on Monday.

W. G. Fleu came up from Ashland to spend Sunday with Mrs. Fleu.

Dick Scott of Stone was here Tuesday. Mr. Scott has been quite seriously ill and still looks rather thin and pale and his many friends are glad to see that he is able to be out again.

Green Charles of Big Rock, Va., and Miss Florence Charles of Grundy, Va., are visiting Mrs. J. E. Yost and Mrs. Zach Justice.

Mrs. Fon Rogers and youngest daughter, Ida Bee, are visiting Misses Magee and Lottie May Rogers who are students at Ward-Belmont, Nashville, Tenn.

C. M. Whitt of Williamson is a court visitor here this week.

Messrs. Lon and Fon Rogers made a business trip to points in Virginia last week.

Sunday was a very full day for the people of Pikeville for everyone was busy bidding good-bye to the last 35 per cent of the first draft, who left for Camp Taylor on Monday morning. This was the largest number of men yet to go from Pike-co., and on Sunday afternoon after they had reported at the public school building where the local board has its office, this body of soldiers-to-be marched to the courthouse, escorted by the band and there a very inspiring programme was rendered.

This programme consisted of several splendid addresses interspersed with music by the band. The court room was filled to its fullest capacity for this meeting and many were turned away because there was no room.

On Sunday evening Mr. Lear of the M. E. Church South, who is holding a

revival at his church preached to the selectives at the court house and again the court room was filled and many were turned away. Mr. Lear preached a very forceful sermon on the text "Render unto Caesar the things that are Caesar's, and unto God the things that are God's." He developed this text along the line that man's duty to man was to a great extent a matter of monetary obligation, his duty to his country, one of service, and his duty toward God that of surrendering the heart and life to His wishes. The large congregation was greatly moved and when the appeal was made for those who wished to fulfill this last obligation to come forward, a large number, including some of the drafted men, went up and gave their hand to the preacher. Altogether it was one of the most inspiring meetings held in Pikeville for a long time.

Prestonsburg Items

Young Ladies Guild.

Mrs. Leonidas S. Moles was a charming hostess to a number of the members of the Young Ladies Guild which met this week at her home on Main street. After a number of hours of needlework and a concert on the new Brunswick she served an elegant lunch.

Methodist Aid Society.

The Ladies Aid of the Methodist church was delightfully entertained this week at the Parsonage by Mrs. H. K. Moore. She served a most tasty luncheon, after a few hours of needlework.

Injured By Fall.

John W. Layne, Jr., lineman for the Prestonsburg Electric Light Co., unfortunately fell from a pole some 30 or 40 feet injuring himself internally. At first he was thought to be dead but after a few hours he regained consciousness. He was attended by Mrs. Wm. and Darwin Callahan and at the present he is resting easily.

More Red Cross Articles Shipped.

The Red Cross chapter recently shipped two large boxes containing knitted articles and hospital garments to the Lake Division Headquarters at Cincinnati. This is the largest shipment this chapter has made. The boxes contained 44 hospital shirts, 25 sweaters, 15 pairs socks, 90 sling bandages, 13 comfort pillows, 6 comfort bags, 144 gauze bandages. They hope to make another shipment soon—one as large as the last one.

Will Organize Red Cross At Wayland.

Mrs. A. J. Henderson was here from Wayland Monday calling on Mr. and Mrs. W. P. McVay. She is very much interested in Red Cross work and took literature back with her to organize a branch chapter of the Prestonsburg chapter at Wayland. There are already more than 50 members there, but no chapter. They are much interested and anxious to begin work in order to help do their bit.

Home From Camp Shelby.

Dies With Pneumonia At Camp Taylor.

Private George Harris, son of W. R. Harris of Brandy Keg, died Monday night at Camp Zachary Taylor. He had pneumonia in December and came home for Christmas with his parents. On his return to camp he had a relapse and was never out any more. His parents left Monday on the afternoon train for Louisville, but the boy passed away before they reached Ashland. His remains were brought home for burial on the evening train Wednesday.

Dr. Record To Be Here Sunday.

Dr. J. F. Record, President of Pikeville college, will be here on Sunday, March 3 to preach at the Presbyterian church. He will also administer the sacrament of the Lord's Supper. There will be special music.

Home From Hospital.

Dr. and Mrs. R. H. Leete, who have been in a hospital for treatment in Columbus and Chicago for more than two months, returned home on Sunday. They were met in Ashland by Dr. M. J. Leete and Miss Bess Leete. Dr. Leete is much improved, but Mrs. Leete is not so well. Their friends are glad to have them home again.
